KB/23/157 **To receive declarations of pecuniary interests (DPIs) and other significant interests from members concerning specific items on the agenda**
Cllr Rutter, as Chair of the Planning Committee does not comment on planning matters.

The Chair brought item 16a up the agenda.

KB/23/158 **Planning**
The Chair asked Ms Beard to explain the number of new planning applications that CALA had submitted. Ms Beard said they were technical applications to do with such matters such as dampproof courses, landscaping and energy use. She said it was not necessary for the PC to comment.

KB/23/159 **Public Participation**
The 3 members of the public who attended were there to speak regarding the Football pitches. One member of the public said they felt that CALA's proposition was outside the design code. They appreciated that 3g pitches were required in Winchester but they didn't think one could be maintained unless it operated commercially. They did not want floodlighting. They said the 2010 outline planning and the design code was for landscaping, open space and grass. There was no provision for an artificial pitch. They believed that the 2010 masterplan should be adhered to because this was in place when they

bought their houses. Cllr Watters said it was difficult to move forwards without talking to CALA (KB/23/162c), but he emphasised that the Committee needed to take account of a wide range of opinions. He said proper consultation was now required. WCC's strategy for football pitches in the north of Winchester was queried and the justification for a 3g pitch. The members of the public expressed disquiet at the Committee's communications about the matter on the Council's newsletter and report to the KB Forum (KC/23/162a).

The three members of public left the meeting.

b. 2a MUGA and play area design
The Committee did not require public consultation on the design of the MUGA. The Committee asked to see the specific markings for the MUGA. A member of the public had provided a critique of possible markings and it was agreed to use this as the response to the planning application.

Kings Barton Travel Plan

Cllr de Stefano updated the Committee on the three strategies that were available. He felt that the mini-bus/community bus would be the best option. He said he was in favour of the increasing the 86 service at peak hours. Mr Slinn commented that after 250 houses there was supposed to be a bus service. He asked if the PC could contemplate running a community bus service but this was agreed as only possible with HCC support. Cllr de Stefano agreed to ask Mr Griffin-Thorn to look into the feasibility of such a service.
